Dear Consumer: For your protection we are alerting you to potential problems which could occur in the servicing of an article (s) that you have asked us to handle.

We absolutely will not be responsible for the following:

- Any loss or change of color—Cause—unstable dyes.
- Any flaws or breaks in hides—Cause—imperfect hides. (show up after being cleaned).
- Any vertical wrinkles in hides—Cause—Inter layer hide either torn or loosened during skinning of animal. (Letting oils dry out of middle layer).
- Any horizontal wrinkles—Cause—Manufacturer used hides from either necks or bellies of animals, which are not to be used for garments.
- Any multi-colored leather—Dye may move from one color onto the other.  
Cause—unstable dyes.
- Any imported leather, loses color badly—Cause—hides which are dyed in foreign countries are very unstable.
- Any dyed Pigskin garment, loses color—Cause—Pigskin hides are very tough and original dye does not penetrate deep enough into the hide, therefore it comes out easily when cleaned.
- Any pastel shades of suede garment (especially green or blue), which has a faded or yellowish cast—Cause—oxidation has taken place (tint does not cover this very well).
- Any suede garment, being limp or loss of body—Cause—Manufacturer used too thin hides (they size these heavily, sizing comes out during processing. This is the reason for not showing limpness before cleaning).
- We will not be responsible for any glue in seams—Will turn dark..
- We will not be responsible for garments with designs on them.
- We will not be responsible for stains in Nudeskin garments.
- Must have all pieces of a suit—The color will not match if not cleaned together.
- We will not be responsible for vinyl and plastic garments.
